CAPABILITIES STATEMENT

Cam-Dex Corporation is a US Small Business Enterprise. Cam-Dex has been providing integrated security solutions, such as, physical access control systems and video surveillance to commercial clients and government agencies since 1957. Our teams specialize in the design, installation, integration, and maintenance of Electronic Security Systems, whether we install them, or if they are legacy systems. Cam-Dex designs custom service programs for our valued customers, implementing security system updates, upgrades, and expansions, and providing technical support, preventative maintenance, and emergency repair.
